Mechanical, Electrical  
& Network Services

## Mechanical

Commercial building HVAC systems are our bread and butter. We furnish, install, and maintain virtually any make or model of equipment serving office buildings, hospitals, hotels, data centers, and laboratories.

- Preventative Maintenance Contracts
- Emergency Diagnostic & Repair Services
- Equipment Retrofits & Replacements
- Energy Efficiency Upgrades
- New Installations
- Remote Monitoring & Controls

## Network Services

Our team of dedicated network infrastructure experts respond to both urgent and pre-planned requirements on a global basis to support our client's missions.

- Remote Hands Support
- Technology Roll-Outs
- Network Closet Revitalization
- Inside & Outside Cabling Solutions
- Asset & Application Migration
- Adds/Moves/Changes
- Managed Services

## Electrical

Self perform electrical capability is in our DNA. We've offered the highest quality commercial electrical services with trained, talented and safety-conscious technicians for over thirty years.

- Preventative Maintenance Contracts
- Emergency Diagnostic & Repair Services
- Equipment Retrofits & Replacements
- Energy Efficiency Upgrades
- New Installations
- Lighting Upgrades
