

CompuDynamics

UPTIME IN NO TIME

Secure Space Design-Build Capabilities

Compu Dynamics delivers turn-key design-build solutions that are specifically created to meet our client's safeguarding and operation needs. Our team manages every step in the process to ensure full compliance with Intelligence Community Directives (ICD) 705, National Industrial Security Program Operating Manual (NISPO), Joint Air Force, Army, Navy (JAFAN) County code requirements, various client-specific TEMPEST, and other SCIF requirements.

SCIF Construction & Secured Facilities

Compu Dynamics has a team of Security and Construction experts that provide a turn-key solution for:

- Customized Sensitive Compartmented Information Facilities (SCIF's)
- Closed Areas
- High Security Rooms
- Server Rooms
- PDS (Protected Distribution Systems)
- SAPF (Special Access Program Facilities)
- RFSE (Radio Frequency Shielded Enclosures)
- TEMPEST

Our team works closely with our clients every step of the way to ensure that construction quality, equipment installation, and specification compliance will lead to accreditation.
