

The Compu Dynamics Texas Difference

Compu Dynamics is North America's premier technology infrastructure design-build partner. We provide straightforward, smart solutions to meet today's challenges with tomorrow's demands in mind. We design, construct, and maintain some of the world's leading data center facilities.

Why Compu Dynamics

Since 2002, we have built our reputation on delivering quality solutions that seamlessly integrate today's best-performing products to create IT environments that can adapt to evolving hardware and software.

We are a trusted partner for our clients because we deliver on our commitments and reduce their risk. We exceed expectations by applying skilled and experienced craftsmen, while expertly managing talented manufacturers and subcontractors.

Working with Compu Dynamics means you are collaborating with a steadfast, dependable, and experienced partner.

Local Team

Eric Turnipseed Account Manager, Texas Division

Eric is an accomplished professional currently serving as the Account Manager for the Texas Division of Compu Dynamics. As a Master Electrician, Eric brings a deep understanding of the intricacies of electrical systems to his role, coupled with extensive industry knowledge.

Known for his ability to balance client needs seamlessly with Compu Dynamics' cutting-edge offerings, Eric ensures that clients receive tailored solutions that align with both their requirements and the latest technological advancements. His commitment to excellence and strategic approach make him a key player in delivering top-notch services in the dynamic field of technology and electrical systems.

David Youngblood Superintendent, Texas Division

David, currently serving as Superintendent for the Texas Division of Compu Dynamics, brings a broad range of knowledge and skills by actively participating in various projects. His hands-on experience includes supervising and working alongside tradesmen in challenging environments. He has an understanding of the complexities and nuances of the electrical industry.

His collaborative approach involves working closely with the Project Management team and partners to ensure timely and budget-friendly project delivery. David is committed to upholding the highest standards of quality and safety, strictly adhering to Compu Dynamics' policies and procedures on every project.

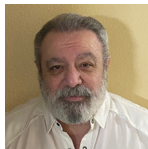

Adrian Davalos **Superintendent, Texas Division**

Adrian, a highly motivated and transparent professional, serves as the Superintendent of the Texas Division with an impressive background in the electrical trade. As a licensed journeyman electrician with 14 years of hands-on experience, he has consistently demonstrated reliability and dependability in his work. Over the course of his career, he has spent nine years in the role of a superintendent, showcasing his leadership and organizational skills in overseeing various projects.

Adrian possesses extensive knowledge in diverse construction settings, including data centers, commercials, and residential builds. His expertise allows him to navigate the complexities of each project efficiently. With a keen ability to work seamlessly with large groups and crews, Adrian has consistently delivered projects on time and within budget. His commitment to finishing projects in a timely manner and adherence to budgetary constraints highlight his dedication to ensuring the success of each endeavor.

Steve Ybanez **Senior Project Manager, Texas Division**

Steve, currently the Senior Project Manager for the Texas Division of Compu Dynamics, boasts thirty-eight years of dedicated expertise in Electrical Contracting and Structured Cabling, with a robust proficiency in Data Center Buildouts. His extensive background and proven track record establish him as a valuable asset for navigating the complexities of modern infrastructure projects.

Steve adopts a collaborative approach, closely working with the Project Management team and partners to ensure the timely and budget-friendly delivery of projects. His commitment to upholding the highest standards of quality and safety is evident through strict adherence to Compu Dynamics' policies and procedures on every project.
